About Us

National Home Nurse employs a team of specialist oncology and acute community care nurses who are experienced in the delivery of treatment and early identification of symptoms.

 **133 000**
nationalnurse.com.au

The provision of holistic care and treatment is delivered in the home by qualified registered nurses with less disruption to the lives of patients and their families.

At all times the patient remains under the care of the referring specialist or hospital, and our operations team provide a clinical handover for each patient and their referring specialist.

The patient's regime (including treatment, supportive care, and management of reactions) is delivered per protocols and pathways agreed to upon referral. Communication is maintained with the referrer at all times, to ensure a seamless transition from hospital to home.

Our Mission

“To provide exceptional healthcare when and where it is needed”.

We pride ourselves on clinical excellence and the delivery of exceptional service to patients. With services across Australian capital cities, we are constantly expanding our network and service delivery areas.

➡ OUR VALUES

WE MAKE A DIFFERENCE,
by providing high quality care to some of the most vulnerable members of our community.

WE CARE,
and our empathetic approach to patients and quality of care sets us apart.

WE LEAD THE WAY,
and embrace innovative thinking, to improve access and quality of home care.

WE ARE STRONGER TOGETHER,
and celebrate diversity as well as industry and community partnerships.

WE ARE ACCOUNTABLE,
and hold ourselves to the highest ethical and clinical standards.
